

- **About Sanita Clogs Inc.**

Created in 1907 by Christen Andersen, Sanita Clogs are the original Danish clogs which have been skillfully handcrafted in Europe for more than 100 years. Sanita is deeply committed to innovative design and superior quality and its inspiration is based on the Danish word “hygge” (pronounced hue-guh) which means “making everything cozy.” In fact, Sanita clogs have been awarded the “Seal of Acceptance” by the American Podiatric Medical Association for their quality and comfort. Sanita’s US headquarters are based in Southern California and their beautiful clogs are available in over more than 40 countries around the world. [www.sanitaclogs.com](http://www.sanitaclogs.com).

- **One of the best kinds of medical shoes.** Every day Dansko strives to make your world a little easier by providing state of the art comfort shoes. From innovative designs to retailer training, your comfort is their first concern. Dansko realizes you lead an active life, and the shoes are constructed with that thought in mind. Dansko footwear is an investment in your well-being. Styles may change, but the Dansko philosophy remains the same. For years, Dansko has been immensely popular among working professionals like teachers, doctors, nurses and a host of other people who spend long days on their feet. Dansko’s all-day comfort features include: a high-quality leather upper that follows the natural contours of the foot, a leather sock lining, a polyurethane outsole, and slightly raised heels which ease leg and back muscles during long hours of standing or walking. Each Dansko outsole combines a variety of materials for shock absorbency, skid resistance, stability and support.
